Phyto's oil®

A VISION ABOUT HEALTH AND WELL-BEIGN

The Phyto's Oil line was developed to a lifestyle in which emotional health is extremely important. The essential oils have been used, for years, in therapies, as a treatment complement, while also treating pathologies, restoring and harmonizing the being's balance.

The goal of the Phyto's Oil products is to potentialize the treatments and make them more effective.

In order to meet consumer demand and the growing interest about hair therapy, which today is present with such relevance in the beauty industry, to promote health and well-being, the products are natural, ecologically friendly and with undoubtable effectiveness.

The well-being of those receiving the treatment is very important to guarantee a work of excellence. It is necessary to be aware that the human body, naturally, understands the substances of the nature that keep the proper functioning of all it's organic structures.

The professional therapist who is interested, who cares for the quality of it's work, has to research, study and check the results to be each time more convinced of what it does. It is with the conviction that the authority on the subject is acquired. Nothing outperforms the power of nature.

Vegetable Oils

- Belong to the lipids class.
- Each oil receives the name of its origin plant.
- Are rich in fatty acids and produce the maintenance of the hydrolipidic layer and the flexibility of the skin of the body and scalp.
- Are destined to diverse purposes in treatments associated to essential oils or can be used alone.
- Can also receive the names "carrier oils" and "base oils".
- Are natural and important in many organic functions on the body, especially the skin, scalp and hair.
- Can be applied directly on the skin.

Vegetable Oils

CÓD. 9022

MACADAMIA

Macadamia ternifolia

HAIR: Shine, density on the hair shaft, flexibility, hair shielding, cuticle shielding, strengthening of the tips, smoothness and hydration.

SCALP: Humectant, moisturizer, nutritious, rich in mineral salts and vitamins and anti-aging of the melanocyte cells.

SKIN: Humectant, protection, anti-drying, relaxant, antiedematous, anti-aging, treatment of skin fissures and anti-residues.

NAILS: Nail strengthener, shine, regenerator and cuticle softener.

MACADAMIA HAS THE POWER OF SPECIAL AND ENDLESS UTILITIES. IT IS CONSIDERED THE "QUEEN OF NUTS".

CÓD. 9023

GRAPE SEED

Vitis vinifera

HAIR: Anti-dryness of the tips, hydration of the hair shaft, silkiness and anti-aging of the color.

SCALP: Humectant, nutritious, rich in omegas and anti-aging of the melanocytes.

SKIN: Hypoallergenic, relaxing, penetrating, lymphatic drainage, nutrition, anti-cellulite and anti-stretch marks.

NAILS: Nutritious hydration, regeneration, protection and anti-aging action.

GRAPE SEED IS CONSIDERED THE UNIVERSAL FOUNDATION TO THE APPLIANCE OF ESSENCIAL OILS ON THE SKIN. CONTAINS VERY HIGH VITAMIN E CONTENT.

Vegetable Carrier Oil

Cocos nucifera

- Smooths and softens dry skin.
- Natural emollient that helps distributing essential oil on the skin.
- Natural smell and colorless, for easy and practical mixing with any essential oil.
- Is destined to diverse purposes in treatments associated with essential oils or can be used alone.
- Can also receive the name "carrier oil".
- Can be added to massage and lymphatic drainage creams associated with other vegetable and essential oils.
- Can be applied directly on the skin.
- Only for skin usage.

Vegetable Oils

CÓD. 9026

COCONUT OIL

Coco nucifera

Natural vegetable oil absorbed, rapidly, by the skin, which is ideal for skin application. It's emollient and ultralight effect promotes a softening barrier that does not obstruct the pores and is excellent for sensible or dry skin.

Is, integrally, soluble with all the essential oils and, also, is colorless and does not stain.

HYDRATION: apply the coconut oil with or without the essential oils on the skin. Can also be used with the neutral cream.

MASSAGE: blend with essential oils and massage the body to reach profound relaxation.

Before any application on the skin, in order to minimize sensitivity, dilute the stronger essential oils with the coconut oil.

HAIR: apply the essential oils to ease the combeability in both dry and wet hair, intensify shine and reduce frizz.

HOW TO USE:

Use it as a soluble carrier oil to blend with essential oils of tested and guaranteed purity. Dilute 1 (one) part of essential oil for 5 (five) parts or more of coconut oil, depending of the sensibility of the skin or how it is indicated on the label of the essential oil. Can be also used to minimize the reactions on skins sensible to essential oils.

COCONUT OIL PROMOTES AN UNIQUE TOUCH THAT PROVIDES AN INFINITY OF POSSIBILITIES AND SENSATIONS.

Thermal Water

- Is font of mineral salts and vitamins that are important in metabolic processes on the skin and scalp.
- Promotes profound and intense hydration.
- Checks and prevents the dryness of the skin.
- Excellent after-sun action.
- Balances the natural microbiota on the skin and scalp.
- Strengthens the natural defenses.
- Hydrates and raises the defense on the intimate parts.
- Stimulates the strengthening of the root of the hair.
- Prevents itchiness on the scalp.

Thermal Water

CÓD. 9025

THERMAL WATER

Oligoelements (mineral salts and vitamins)
Botanical extracts
Alpha-glucan oligosaccharide

Is the aqueous compound that works as a prebiotic or inductor of the protection of the natural microbiota on the skin and scalp.

SCALP: spray on the skin of the body or scalp, before and after treatments.

HAIR: apply directly on the strands of hair, to enhance the strengthening of the hair shaft.

- Astringent
- Antioxidant
- Antiseptic
- Detoxifying
- Circulation stimulant
- Refreshing
- Oil regulator
- Collagen renewal
- Cellular renewal
- Tissue repair (skin)
- Softening

THERMAL WATER IS FONT OF MINERALS TO PERIODS OF PREPARATION AND AFTER HEALTH, BEAUTY AND WELL-BEIGN TREATMENTS.

Vegetable Neutral Cream

- Appropriated for massages.
- Formulated with botanical extracts, oils and vegetable butters.
- Promotes intense and profound hydration.
- Promotes the treatment of eczemas, dermatitis, psoriasis and skin irritations.
- Checks and prevents skin drying.
- Excellent after-sun action.
- Destined to diverse purposes in treatments associated with essential and vegetable oils or can be used alone.

Vegetable Neutral Cream

CÓD. 9025

VEGETABLE NEUTRAL CREAM

Botanical extracts:

- Mentha piperita
- Cucumis sativus
- Aloe barbadensis

Font of omegas

Vitamin B5

Vitamin E

Vegetable oil

Shea Butter

Emollient cream indicated for skin irritation treatment, reducing the itchiness caused by dermatitis and eczemas.

Rich in nutrients that return profound hydration of the skin, preventing dryness.

MASSAGE CREAM: can be associated to the coconut, grape seed or macadamia oils, in conjunction with essential oils, for multiple treatments on the body.

HAIR: apply directly on the strands of hair or on the scalp to help with the humectation. Associate with vegetable and essential oils to treat, specifically, pathologic needs.

- Cell renewal
- Skin repairer
- Softening
- Skin soothing
- Healing

VEGETABLE NEUTRAL CREAM CONTAINS VITAMINS, MINERAL SALTS AND VEGETABLE OILS TO TREAT HEALTH, BEAUTY AND WELL-BEIGN.
