PERMANENT VEGAN HAIR DYE/SPECIAL TONERS

ANGSTRONS HIGH-TECH NANOTECHNOLOGY: extremely reduced crystalline micro-pigments that penetrate deeply into the hair fiber. Inside the fiber, promote the exclusive process of agglutination of these pigments, which makes the particle bigger, facilitating a perfect coverage and fixation of the color for much longer.

Promotes excellent coverage of the white hair with intense and vibrant colors, in addition to the shine and conditioning.

PROPORTION OF USE

1:1,5- Permanent Color

1:2 – Special Toners and Super Lighteners

ACTIVES:

- Vita Oils Plus (Omega Microcapsules):** Vegetable Oils complex that prevent dryness. Are gradually liberated while coloring.
- Aloe Vera and Seaweed Extract:** hydration and protection of the scalp and hair.
- Shea Butter:** conditioning, shine and natural humidity retention to the hair
- Vegetable Keratin:** reposition of the essential amino-acids for the prevention of breakage and fading.
- Vitamin B5:** prolonged hydration and intense conditioning.
